

# INVESTING IN OUR STUDENTS' FUTURES BRINGS AN IMPRESSIVE RETURN TO OUR BUSINESSES AND COMMUNITIES.

**GOAL: \$12 MILLION**

**1**

## K-14 PATHWAY SUPPORT

To support our students and grow our economy, we must create a seamless pathway from high school to Ivy Tech through dual credit and dual enrollment programs and on-site College Connection Coaches who can explain processes and inspire opportunities.

**2**

## MENTAL HEALTH

From everyday stress management to challenging family situations to PTSD, our students often need greater support while pursuing their education.

**3**

## SUSTAINABLE SUPPORT

For our students to be workforce-ready and competitive, they need to participate in outside events, learn from top faculty, and train on current, in-use technologies—especially those in programs with high-equipment needs.

**4**

## LAPTOPS FOR STUDENTS

To ensure equal access to online classes and data, we want to provide qualified students with laptops or tablets, and a data plan.

**5**

## STUDENT SUCCESS INITIATIVE

To help our students stay positive and on track, we want to create a program that measures their accomplishments, provides positive recognition, and strengthens their resolve to stay with their goals and continue their journey.

**6**

## CAMPUS ENHANCEMENTS

Today, numerous industries demand multi-discipline collaboration. Our students cannot experience that because our current configuration prohibits shared lab and learning environments. This fractured experience also impacts student services.

**7**

## SCHOLARSHIP PROGRAM BOOST

By supporting this program, you will help us increase our existing scholarship program and expand it to support emerging demographics and critical employment areas.

## ARE YOU READY TO INVEST IN IVY TECH TERRE HAUTE?
