WHY IVY TECH?

"Ivy Tech has done so much for my education, giving me a head start while I was in high school and providing a pathway for me to an affordable, quality education that I plan to transfer to a 4-year college. The classes are small and the teachers are able to give more attention to my classmates and me. The faculty is extremely caring and helpful, and Ivy Tech will provide the resources I need to succeed and even help me find a job."

WHY IVY TECH?

"As the mother of two, wife of a military veteran, and aspiring student, Ivy Tech has provided an educational pathway where my dreams are becoming a reality. Ivy Tech online courses allowed me the opportunity to begin coursework from 2,000 miles away while stationed in San Diego. After moving home to Terre Haute, my husband and I are both continuing our education. Ivy Tech has consistently gone above and beyond in helping me and my family reach our goals!"
